

Smart ERP

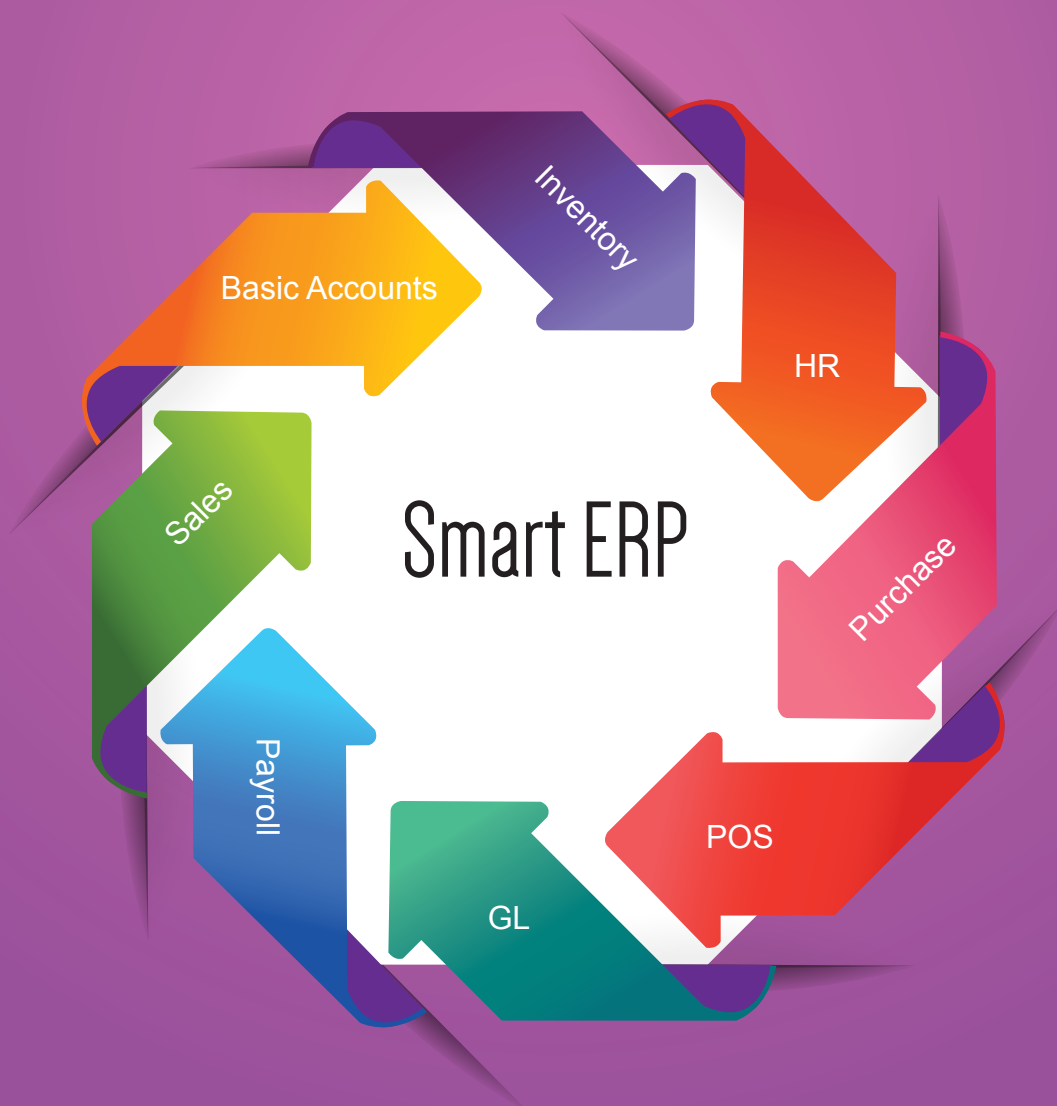

Flexible Modular Design

SMART ERP is a complete Sales, Purchase, Inventory, Basic Accounts, POS, HR, Payroll and GL management ERP software for small to medium enterprise that helps to make small business owner's management easier. This ERP provides paperless management of sales, purchase, inventory and accounts with lots of informative dash boards and much more. SMART ERP provides the management of different areas with reporting in different dimensions, that's helps management to manage things in a smooth way.

The software user need not be an expert in computer environment, software is very easy to use that anyone with a little knowledge of computer operations can operate very easily.

SMART ERP offers a flexible modular design implemented as a complete system in order to achieve organization's productivity.

SMART ERP is available in two editions with VAS (Value Added Services),
pick the one which suits your needs:

SMART ERP Express Edition contains feature-rich modules including complete Inventory Management, Purchase Management, Sales Management, POS and Basic Accounts. Each module incorporates comprehensive Dashboards and collection of reports needed on a day to day and periodic basis.

SMART ERP Professional Edition contains feature-rich modules including complete Human Recourse Management, Payroll, Inventory Management, Purchase Management, Sales Management, POS, Basic Accounts and General Ledger. Each module incorporates comprehensive Dashboards and collection of reports needed on a day to day and periodic basis.
